

ReSource Pro Named to Inc. 500|5000 List for Third Consecutive Year

NEW YORK, NY – August 17th, 2011 - Premier insurance process outsourcing provider ReSource Pro is proud to announce its inclusion in the “Inc. 500|5000” list for the third year in a row.

Inc. Magazine sponsors this annual list in order to honor the fastest-growing privately-owned companies in the United States across all industries. In describing the significance of the 2011 list, *Inc.* president Bob LaPointe notes that “The leaders of the companies on this year’s Inc. 5000 have figured out how to grow their businesses during the longest recession since the Great Depression.”

ReSource Pro is a company founded by insurance people for insurance people. Its dedicated specialists perform data and policy processing tasks and help clients improve internal efficiency rates, free in-house staff from routine processing work, and empower their employees to *do what counts*: service customers and sign new business.

ReSource Pro CEO Dan Epstein says, “We are very happy to find ourselves on the Inc. 500|5000 list again in 2011. The ReSource Pro family continues to grow: we recently surpassed the 1000-employee mark, and our client base now includes more than 125 insurance organizations across the United States. Most importantly, this commendation again reaffirms the value of the outstanding work performed by our processing specialists and our management teams in both the U.S. and China. We congratulate all those included on the list and we look forward to more growth in the year to come.”

About The Inc. 500|5000: The Inc. 500|5000 is an annual list of the 5000 fastest-growing privately-owned companies in the United States as determined by *Inc.* Magazine. The list is ranked according to percentage revenue growth over the preceding three years.

About ReSource Pro: Founded in 2003 with corporate headquarters in New York City and operational centers in Qingdao and Jinan, China, ReSource Pro specializes in enabling insurance organizations to transform their processing operations into an engine of revenue growth, profitability, and competitive advantage through increased efficiency and process improvement.
