ReSource Pro CEO Dan Epstein Chosen to Speak at Peak Performance

NEW YORK, NY, Jan 18, 2011 – Dan Epstein, CEO of premier insurance process outsourcing provider ReSource Pro, has been named as a featured speaker at the 2011 Peak Performance Ski Insurance Conference in Snowmass, Colorado. In a few short years, Dan has transformed ReSource Pro from a fledgling operation with four clients into an industry leader that earned a spot on *Inc.* Magazine’s annual list of the “500 Fastest Growing Companies in America” in both 2008 and 2009.

Dan’s speech, like the conference itself, focuses on navigating a changing industry and, specifically, the ways in which outsourcing will shape the future of insurance. Dan’s presentation will also touch on another key concern for insurance providers: the aging workforce and the growing influence of the millennial generation. Managers may not know it yet, but the future of their businesses rests with this demographic.

Other keynote high points include MarshBerry president John Wepler speaking on the wisdom of acquisitions in a difficult market and Chad Meisinger, former Google executive and founder of Over the Top Marketing, discussing best practices for capitalizing on your business’s web presence.

Peak Performance turns 10 this year, and thought leaders from across the insurance industry will use the occasion to mingle with fellow entrepreneurs, take advantage of formal networking opportunities, attend roundtables and guest lectures, and enjoy skiing some of Colorado’s most beautiful slopes while living in style at the Viceroy Hotel. For more information on the conference, please visit skiprogrambusiness.com

About ReSource Pro: Founded in 2003 with headquarters in New York City and processing centers in Qingdao and Jinan, China, ReSource Pro is a leader in operational efficiency and processing solutions for the insurance industry, serving more than 110 U.S. brokers, regional carriers, and managing general agencies with management professionals located across the United States and a team of 850 college-educated, English-speaking insurance processing specialists in China.
